	YES NO

Bilingual Lessons

At Anula Primary School we are fortunate to have Bilingual Officers who are able to support our Intensive English students. Although our main emphasis is supporting our students to learn English, we also provide a short program each Friday, for students whose first language we represent, to work with a Bilingual Officer. During this program the students participate in activities in first language, as well as English.

Bilingual Officers aim to:

- Develop and maintain the students' first language
- Develop and main an understanding, pride and connection to culture
- Develop the students' conceptual understanding of English key learning areas through first language.

At Anula we value the opportunity for our Bilingual Officers to work with students in their first language. We encourage families to maintain their first language whilst learning English. As Judie Haynes states, *"Students who have strong literacy skills in their native language will learn English faster."*

We currently offer Bilingual lessons in the following languages:

- Indonesian
- Hindi
- Mandarin

If you would like your child to participate in Bilingual Lessons on Friday afternoons, please sign below.

Kind regards,

Tanya Harvey
Assistant Principal
